

COLLECTION DEVELOPMENT POLICY STATEMENT

CLASSIFICATION: TL (VEHICLES)

JULY 1999

General Purpose: To provide minimal support for undergraduate curricula in Engineering Mechanics and basic information and recreational needs of cadets and faculty.

Collection Level Intensity: Basic information

Geographical areas: Primarily U.S. and some foreign materials

Chronological Periods: Primarily 20th and 21st centuries

Types of Material Collected: Monographs, encyclopedias, some repair manuals (both U.S. and foreign), government publications, buying guides, technical reports, serials, and bibliographies. Electronic sources include CD-ROMs and evaluated Internet web sites.

Types of Material Excluded: Audiovisual materials

Other Factors: None

Subjects and Collection Levels:

TL 1-480 Vehicles
Z 5170-5173 Bibliography

Collection in this area is highly selective. Included are a few encyclopedias (historical in nature) and several types of repair manuals and consumer information for both foreign and domestic motor vehicles. Basic reference material on motorcycles and recreational vehicles will also be collected. Materials are primarily in the English language and selected from professional reviewing journals.

Weeding Criteria: Repair manuals will be kept unless superseded or in poor condition.
